

HOW TO SHARE A POST ON FACEBOOK

Step 1: Locate the post which you want to share and press the **“Share button”** on the bottom-right corner of the post.

Step 2: In the pop-up menu that appears, select **“Share now”** if you want to instantly share the post or **“Share to News Feed”** if you want more control, including the ability to add descriptive text to the post you wish to share.

Why can't I share a post on Facebook?

It might be due to your privacy settings.

You would have to adjust your privacy settings accordingly.
